

INTERNATIONAL NUMISMATIC CONGRESS

NEW YORK — WASHINGTON 1973

November 12, 1975

Dear Eric,

Thanks kindly for sending me Ted Buttrey's "bomb" which I really did enjoy reading and will enjoy rereading several times before the effect wears off! I know a good bit more now than I did when I heard his speech on the subject at the Congress and I can follow more easily the printed word; I find it fascinating.

My check number 2952 in the amount of \$3.50 is enclosed and I am pleased to send it.

Since you were in Burma, it is no wonder that I did not see you at the ANS meeting on the 8th but I was thinking about you. I had been looking forward to being able to say "hello" for some time. I have never been to that part of the world; my business travels have been limited to the western hemisphere. Were you vacationing or on business? I picture it as a fascinating place!

My current timetable for completion of the project on Reid's coinage calls for publication status by summer 1976 and I hope to get it in the then projected issue of Museum Notes. I hope I can make it!

Are any particular days of the week better than others for visiting your library? I don't want to run the risk of being a nuisance.

Best regards.

Alex

Dear Dexter:

I am sorry I did not see you at the ANS meeting in New York, but I would have had jet lag which it took ten days to recover from. Bhutan and Burmas which were our principal spots to visit were fascinating and my wife and I enjoy that type of vacation so much.

In connection with your visit, my suggestion is that it would be better on a weekend as I work a full day. Naturally I don't have to be present when you are reading material, but I certainly will want to help you find whatever you are looking for. I do not know when you plan to visit, but my grandchildren are coming here for the Christmas vacation. I will probably be in Jamaica from January 4 to January 11, 1976. Other than that, I will be working on various publications so that I can be flexible as to time.

I am glad you enjoyed reading the Mexican Bar matter and there are other similar matters which are just as fascinating.

My kindest personal regards,

Eric P. Newman

Dear Dexter:

Thank you for the offprint of your last publication. It will find a proper place in my library.

It was very nice of you to comment on the Philadelphia find article and I feel privileged that I had the opportunity of writing it up.

Kindest regards.

Sincerely,

Eric P. Newman
